'HELP ME SAVE MY WIFE'

by Natalie Wakefield

natalie.wakefield@stafordshirenewspapers.co.uk

EDITOR of the Ashbourne News Telegraph, Stephen Sinfield, has issued a heart-felt plea to readers after being told a bone marrow donor must be found to save the life of his wife, Katherine.

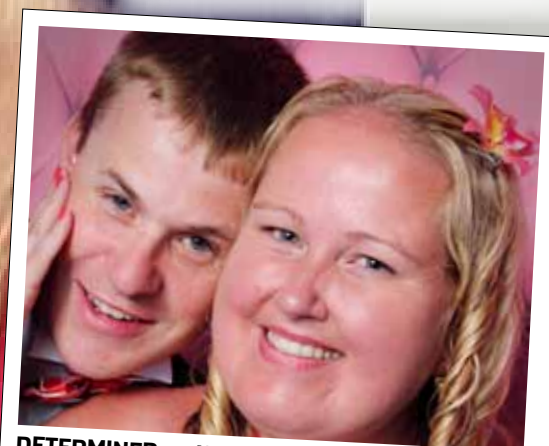

In a bid to find a donor for Katherine, 32, and encourage people across the Ashbourne area to help fight cancer through blood donation, the News Telegraph today launches its new Take Five Minutes Appeal.

Mr Sinfield said: "We are both deeply touched by how family, friends and colleagues have offered to become bone marrow donors.

"Being thrown into this situation certainly makes you think twice about helping others.

"It would be nice if one of Katherine's volunteers would be found to be a match - but even if they're not, it's reassuring to know that they could be helping another family in this town, this county or even abroad who are going through the same torment."
